A. O. Smith Recalls Ultra-Low NOx Water Heaters Due to Fire...

HAZARD

The water heater's gas burner screen develops tears. The water heater's burner can then create excess radiant heat, posing a fire hazard if the water heater is installed directly on a wood or other combustible floor.

DESCRIPTION

This recall includes 30, 40 and 50 gallon natural or propane gas-fired Ultra-Low NOx emission gas water heaters. They are designed to comply with regulations in certain air quality districts in California, and were sold primarily in California. They were sold under the American, A. O. Smith, Kenmore, Reliance, State, U.S. Craftsman and Whirlpool brand names and manufactured from April 8, 2011 through August 1, 2016. Only water heaters with the first four digit serial numbers between 1115 and 1631, where the first four digits represent the year and week of production, are included in the recall. The brand name, model...

INCIDENTS & INJURIES

A. O. Smith has received six reports of fires occurring from a water heater installed directly on a combustible surface. No injuries have been reported.

REMEDY

Consumers should immediately turn off and stop using the recalled water heaters and contact A. O. Smith to determine if a free repair is necessary.

Some information about this recall has been omitted to fit the page. For the complete details please visit the U.S. Consumer Products Safety Commission website (link on the right).

Husqvarna Recalls Lawn Mowers Due to Laceration Hazard

HAZARD

The operator presence control bar can malfunction and cause the engine and blades to continue to operate when they should shut off, posing a laceration hazard to the operator.

DESCRIPTION

This recall involves Husqvarna®, Poulan Pro®, Jonsered®, Craftsman®, Yardworks®, Murray®, and Brute® brand walk-behind gas powered lawn mowers with Briggs & Stratton 7.25 HP engines. They were sold in red, orange, blue and yellow/black colors and have either four similar-sized wheels or two larger rear wheels and two smaller front wheels, a long handle with an operator presence control bar that is pushed down towards the mower handle to start the engine, a mowing deck, and may have come with or without a collecting bag in the rear. The brand names are printed on the mowers, and a...

INCIDENTS & INJURIES

The firm has received 53 reports of the engine not shutting off after the operator presence control bar was released. No injuries have been reported.

REMEDY

Consumers should immediately stop using the recalled lawn mowers and contact Husqvarna or go to http://husqvarna.custhelp.com/app/answers/detail/a_id/1255/ to determine if their unit needs a free repair.

Cuisinart Food Processors Recalled by Conair Due to Laceration...

HAZARD

The food processor's riveted blade can crack over time and small metal pieces of the blade can break off into the processed food. This poses a laceration hazard to consumers.

DESCRIPTION

This recall involves the riveted blades in Cuisinart food processors with model numbers that begin with the following: CFP-9, CFP-11, DFP-7, DFP-11, DFP-14, DLC-5, DLC-7, DLC-8, DLC-10, DLC-XP, DLC-2007, DLC-2009, DLC-2011, DLC-2014, DLC-3011, DLC-3014, EV-7, EV-10, EV-11, EV-14, KFP-7 and MP-14. The model number is located on the bottom of the food processor. The blades have four rivets and are silver-colored stainless steel and have a beige plastic center hub. Only food processors with four rivets in the blades are included in this recall. Cuisinart is printed on the front and on the bottom of the food processors.

INCIDENTS & INJURIES

Conair has received 69 reports of consumers finding broken pieces of the blade in processed food, including 30 reports of mouth lacerations or tooth injuries.

REMEDY

Consumers should immediately stop using the food processor's riveted blade and contact Cuisinart for a free replacement blade.
